BETTER STREET LIGHTING NEW STREET SIGNS ARE PLANNED BY COUNCIL

Street signs for the entire city were in the office this week, as Mayor Paul Green announced that the city council, at a caucus meeting, Monday night, had approved purchase of steel enameled street signs, mounted on galvanized poles, for every intersection in the city. Mayor Green estimated cost of the project at approximately \$2,500.

Pointing out that major intersections have already been covered, the mayor said, "Daly City has needed street signs for a long time, and the council has decided to do the whole job at once, instead of doing it on a sectional basis. We expect delivery of the signs some time in September, and installation should be completed by the end of the year."

After the caucus, the council witnessed a demonstration of a new, high lumen street light, which is several times brighter than existing street lights.

The Pacific Gas and Electric company has been requested to make a survey of the city, to estimate cost of the new lighting system.

Preliminary plans call for installation of new lights on all major streets, with possible installation on all streets at a later date.

"Completion of these two projects will make Daly City the best lighted city in the bay area, as well as giving us the best street-marking program possible," Green said.

Storm - Sanitary Sewage Facilities To Be Improved

Improvement of storm and sanitary sewage facilities for a large part of Daly City is in the hands of City Engineer R. A. Klassen this week.

The city council instructed the engineer to draw plans for re-location of sewer lines converging in the vicinity of Marchbank Park, and for construction of a large maintenance shaft adjoining the Southern Pacific right of way, on filled ground.

Klassen was asked to prepare an estimate on the cost of the project, for consideration in the next budget.

Julius Castelan Files For Jefferson Elem. School Board

Julius S. Castelan, 862 Bellevue avenue, filed for the Jefferson Elementary School Board of Trustees this week and is opposing Leonard W. Herrington, 1403 Sweetwood drive, Broadmoor Village, who last week was the only one filing for the job. The incumbent, Fred Bertetta, has as yet failed to file for re-election.

One other has also filed for the San Mateo Junior College Board of Trustees. He is V. S. Simonds, 34 Park road, Burlingame. Mrs. Stella L. Jensen of Colma, incumbent, has also filed.

As yet, Mrs. Ann Eason and Peter J. Markovich, both incumbents, are the only ones to file for the Jefferson high school board of trustees.

April 20 is the deadline for receiving applications.

ARMED ROBBERS TAKE \$80 FROM SERVICE STATION

Shortly before 3 o'clock Wed-nesday morning, George Spence, attendant at the Associated Sta-tion at 2408 Junipero Serra bou-levard, called police stating that he had just been robbed.

According to Spence, two men driving a '42 Plymouth sedan drove into the station. One of the men asked to use the phone. Up-on granting the request Spence stated the man pulled out a gun and said: "This is a holdup." He forced Spence into the office and took the money from the cash register amounting to almost \$80. The other man waited for the two to go into the office and then followed them in.

They left driving south on Ju-nipero Serra boulevard for one block then went west on 88th street.

Lois Lagomarsino Will Reign As Queen Of The May

Tiny Lois Lagomarsino was chosen Queen of the May and will reign over all her subjects during the annual May Fete sponsored by the Daly City Recreation Committee, announced Mrs. John Sorenson, Queen committee chairman. The event is scheduled for May 1 at the Jefferson Union High School upper level playground. The coronation will climax an afternoon of pa-rades and children's programs.

Lois, lovely 7-year-old daughter of Mr. and Mrs. Lloyd Lagomarsino of 125 Ermswick street, was the popular choice of her first grade classmates at Our Lady of Perpet-ual Help School. She was one of five little girls in the 6 to 8 age group of the primary and elemen-tary schools in the Jefferson Dis-trict participating for the title.

The girls were elected by the student body at each school, then the names of each placed in a hat, and the queen was picked at ran-dom by a member of the committee in charge.

The four remaining charmers will be the Queen's attendants. They are Geraldine Franzioa of the Jefferson Elementary school, San-dra Paoli of Thornton, Mary Alice Olson of Woodrow Wilson and Marilyn Firpo of General Pershing.

Public Schools Week will be ob-served at the Jefferson Union High School on the evening of Tuesday, April 26.

All departments will be open from 7 p.m. until 8:30 p.m. A program is being arranged and will be presented in the auditorium at 8:30 p.m.

Parents and friends of the school are invited to visit the school throughout the week but in par-ticular are urged to come the evening of the program.

Exhibits, demonstrations, etc. will be of interest.

The numbers planned for the au-ditorium will provide a well bal-anced program showing the work of the school.

Jeff Gym And Pool Open Three Days During Vacation

During the Easter vacation the high school pool and gym will be open in the afternoons and evenings, Monday, Tuesday, and Wednesday. Both will be closed Thursday, Friday, and Saturday.

Colma Fire Calls Now Routed Thru DC Fire Department

Calls for the Colma Fire Depart-ment are now being handled through the Daly City Fire Depart-ment. The system started as of 4 o'clock Wednesday afternoon, April 6.

The change will alleviate a great-er number of false alarms which previously were received by the Colma Fire Department as a result of wrong numbers.

The phone number, however, is still Delaware 3-7119, but when dialed will be answered by Daly City to first determine if it is a false alarm and if not where the fire is, saving many volunteers the trouble of racing to the fire house only to find out it is a false alarm.

WHO WANTS COMPULSORY HEALTH INSURANCE?

At the start, Senate committees spent many weary hours trying to find out exactly who or what was behind the health bill under dis-cussion. In fact, among early witnesses, they even had trouble spot-ting those who had read and understood the program and those who merely "thought it was a good idea."

From transcripts of testimony, however, it is clear that those who are pressing today for passage of a federal compulsory insurance law are those who have favored it from the beginning.

These include the Social Security Board, some other government bureaus and departments, organized labor (at least its leaders), cer-tain social reform groups, and a small minority of the medical pro-fession.

We have to qualify the statement that organized labor, as a whole, is either for or against a compulsory health law. Many labor leaders have spoken in favor of such a federal system. Many have testified before Senate committees, and at least have given the im-pression that they spoke for labor as a whole.

Yet there is no record that the rank and file of union members have ever voted on the subject. In fact, there is no reason to believe that the average worker, if he has heard of the proposed health pro-gram, has more than the haziest idea of its provisions or its cost.

Public opinion polls haven't been of the slightest use in this situ-ation. The answer you get depends entirely on the way the question is put.

Ask the man on the street whether he'd like to have the govern-ment pay all his doctor's and hospital bills, and he'll say: "Bet your life!"

Ask him if he'd like to have 4 per cent or more taken out of his salary every week for insurance against doctor's and hospital bills, and he may not like it so well.

Lined up against the passage of a compulsory health insurance law today are likewise those who have formerly opposed such pro-grams. They include the big majority of the nation's doctors and dentists, the American Medical Association, insurance companies, and probably the bulk of business men dependent on free enterprise.

Enemies of this federal program call it "socialized medicine." Its most ardent advocates call it "national health insurance." Between the two extremes, we hear such terms as "political medicine," "state medicine," "government medicine" and many more.

By these or any other names, the essence of the idea is the same in the Ewing proposal and in the latest of the Murray-Wagner-Pepper measures, S.1320, introduced in 1947, and debated to a deadlock in the last session of the 80th Congress.

Boys See The Workings Of Local City Government

Patrol boys of the Jefferson Ele-mentary School were taken on a special tour and given explanations of the workings of the city govern-ment last week, in appreciation of their work, by the Daly City Police Department.

The boys were taken through the city hall where the functions of the police department, court, city coun-cil, jails, and the keeping of the records were explained to them. Fire Chief Kennedy told them of the work of the fire and water de-partments.

A tour of the city via three police cars was taken. The 15 traffic pa-trol boys visited Doelger's West-lake tract. Taking the tour were Captain Martin Caravano and his two squads. The first squad in-cludes Lt. Edward Fuchs, Donald Bocci, Stanley Stanton, Joe Bocci, Leonard Monson, Jim Hutchinson and Frank Bertoli. Second squad includes Lt. Alfred Schenone, Charles Maynard, Jack Plunkett, Alfred Lagomarsino, Jim Fernan-dez, John Dennis and Allen An-chony.

The storybook lady and Easter story will be told in a unique way. Two films, one a comedy and an- other a Bible story will also be fea-tured.

Resignation of Tom Stanghel-lini as president of the Daly City Merchants Association came be-fore the membership as a sur-prise announcement just before the end of the group's regular meeting held at the city hall on Monday night.

Stanghellini was not present at the meeting, but sent his resigna-tion in the form of a note which was read to the assemblage by Secretary Ted Hopman. Peter J. Markovich, past president, acted as chairman for the meeting un-till the announcement came.

First Vice-President Frank Lombardi took over the reigns as head man of the organization and Rosenbaum was elected to fill the job left vacant by Lombardi. Ira Neville was chosen as second vice-president, a post that has never previously been filled.

Previous to the announcement of Stanghellini's resignation the association had gone on record with a recommendation to the city council that would consid-erably lower the business license fees now proposed by the coun-cil. (Continued on page 6 col. 5)

DALY CITY STREET IMPROVEM'T PROGRAM IS NOW UNDER WAY

NO GOOD TO DRINK EVEN ON APRIL 1ST

It happened on April Fool's Day, but it was no joke.

Terry Linton, 2 1/2 years old of 170 Los Olivos avenue, was thir-sy so drank a can of brake fluid. His mother notified police and Terry was taken to Junipero Serra hospital for treatment and returned home.

Recent purchase of a new emul-sion-sprayer for city streets was being justified this week as city employees started a program of repairing cracks and chuck-holes throughout the city.

The street-improvement program was delayed nearly 45 days due to unusually heavy rains, but the new equipment enabled street workers to proceed with the job twice as fast as normally.

Further improvements were seen as the city council requested state highway officials to remove the old safety island on Mission street opposite Hillcrest. Obsolete since abandonment of street car service, the island has been declared a traf-fic obstacle. The highway depart-ment was also asked to repave portions of Mission street to oblit-erate painted safety zones, no longer used, and to relocate the double line at the top of the hill, on Mission street.

GOOD SCOUTS

Boy Scout Week gave the 2,200,000 Boy Scouts of America an opportunity to bring the country up to date on their activities during the past year. After looking over their report one must conclude that they haven't spent all their time rubbing two sticks together.

In between camp fires and hikes they collected 500,000 pounds of food for the Friendship Train, 1,905,000 pounds of clothing and 781,000,000 pounds of paper. They also gathered 125,000 books for the armed forces and for overseas libraries, painted 336 air identification markers, put more than \$100,000 in Community Chest drives, distributed 5,000,000 pieces of literature, planted over 1,000,000 trees, grew gardens, and inaugurated a "Junior Marshall Plan" to help people abroad.

If they do as well this year — and you can be sure they will — they will go far toward achieving their air expressed in the slogan "Strengthen the Arm of Liberty."

HIGH RETURN

If most or all of the recommendations of the Hoover Committee on Government reorganization are put into effect, the \$2 million spent by the committee in carrying out its investigations will provide a handsome return to the taxpayer. Some of the estimated economies include a reduction of \$200 million to \$300 million in the annual post office budget, a cut of \$250 million in supply purchases, \$80 million in the Agriculture Department, and many millions in the handling of official records. Eventually, the total economies each year could run into the billions.

The great problem is, of course, to get congressional approval of the cuts. The usual tendency in such cases is for the lawmakers to resist economies in their pet departments and to ask that the savings be made elsewhere. That sort of thing will leave us right back where we started, except that we will have wasted the \$2 million spent by the commission, plus the time and effort of a lot of intelligent and able men.

BUYER'S MARKET

In many lines the buyer's market has returned. Now, a buyer's market is a fine thing for the buyer — if he can buy. But under present credit regulations he can't.

We have particular reference to the requirement of a one-third down payment on such things as automobiles, with the balance to be paid within 18 months. These stiff terms have given automobile sales, especially in the medium class range, a hard blow. They require \$100 a month or more in installment payments on many popular makes of cars — and that's far too much for a family man to handle even with the comparatively high wages now being paid.

Of course, if a man is in the high income brackets, or if he is single with good earnings, he can pay that much. But the average fellow can't do it. In this sense, the present regulations are a form of discrimination against most of us.

It's quite apparent that unless there is an immediate easing of credit restrictions, car sales — and appliance sales, too — will continue to drop. And jobs and payrolls will drop with them.

Continued prosperity depends on substantial sales volume. Whatever tends to unduly restrict that volume tends also to lessen prosperity. To some people, credit regulations may have seemed necessary to curb inflation last year when they were imposed. But it must have become obvious to almost everyone that it is even more necessary to now discard them if we are to curb deflation.

COLOR CONTROVERSY

It is certainly high time that the question of margarine color should be settled. No valid reason has been presented as to why this product cannot be sold already colored. It would save a lot of mess and bother in the kitchen and it would end the discrimination against margarine which should have been ended many years ago.

This matter of color and also of taxes on margarine are now before both the Congress and the California State Legislature. If the lawmakers are at all responsive to public sentiment they'll toss out the taxes and toss in the color.

Newly Chartered Boy Scout Troop 249 Is Accepting Membership Applications

Cemetery Workers Union Rejects 25c Per Day Raise; Negotiations Continue

Cemetery workers here and in Alameda county voted to reject employers' offers of a 25-cent daily wage boost at meetings held a week apart on both sides of the bay, according to Eugene Guiney, union representative.

The 200 members of Local 10634, AFL, met last Thursday night in the Colma city hall. The Alameda county local, numbering 150 strong, met last night in Oakland. No strike has been called.

Guiney said that the union wants to meet with the employers to get the matter straightened out.

The union has asked for an 80-cent increase over the current \$12.25 daily pay rate, as against the employers' offer of a 25-cent raise. This is the only disputed part of a new contract between cemetery workers and employers, which will replace the contract that expired March 1.

Both locals have asked the Central Labor Council of San Francisco and Oakland and the Building Services Employees International, with which they are affiliated, to help with negotiations.

NEWS FROM THE SCHOOLS

CROCKER

The students of the H5 and L5 grades were pleased when they won the Thrift Banner two weeks in succession.

The L6 group is commencing the study of the multiplication of common fractions, while the H5 class is taking up the subtraction of mixed numbers.

In social studies, the two classes are continuing their work on the study of the important industries of the United States by means of maps, reference material, and the construction of pictorial booklets.

The H6 - L6 has been reading and discussing some of the legends of Hawaii. They are beautiful and stirring tales of the deeds of the ancient heroes of these islands.

"The Seven Great Deeds of Marie," for example, tells of how Marie fished up an island, snared the sun and made it go more slowly across the heavens, lifted up the sky, and captured fire for the use of man.

These stories tie in well with the social studies of the "Pacific Area," for they reveal the primitive beliefs and conceptions of the native islanders. They also reflect the environment in which the island people live — the sharks, fishing canoe sailing, making the tapa cloth, bananas, coconuts, and gales.

In their study of the areas of plane surfaces, the H7 and L8 have been learning some of the standards for the construction and size of houses. They have learned that in order to get a loan a house may not exceed a certain percentage of the size of the lot on which it is built; the window space must be a certain percentage of the floor area, and the living room, as well as other rooms, must be no less than the required size.

In social studies this same group has learned the provisions of the Treaty of Paris, which ended the Revolutionary War, the Articles of Confederation, the provisions of the Ordinance of 1787, which is still the basis of our territorial government; and the work of the Constitutional Convention.

JEFFERSON

A real bird's nest and a live frog were on exhibit in the two first grade rooms at Jefferson this week. Room 5 viewed with interest the construction of the nest and discussed the manner in which it was made and the materials used for its construction. They enjoyed a story about nests. Original stories and art works were contributed by Carol Peterson, Emilie Tilford, Rosemarie Ordway, James Tester and Frank Williams.

The high first was concerned with a frog Gary Lucas brought to school. The class decided they would like to know more about the frog so they read about frogs, from tadpole to bullfrog. They particularly enjoyed the poem "Frogs at School."

The Indian exhibit in the third grade room is growing rapidly. They are studying Pueblo Indians and the children have brought arrowheads, jewelry, Indian dolls, pictures and interesting books of Indian life.

Each Thursday morning the fourth grade at Jefferson Annex listens to the Standard Hour Broadcast. Using an historical background theme, the program of music appreciation is one the children seem to enjoy greatly. In each program there is some song with which the children are familiar so they join in the songs, taking an active part in the program.

The fifth grade prepared readings in correlation with the Standard Broadcast last week. George Anne Cole and John Homes narrated from their reading "The Wizard of Oz." Lowell Klaisner told about "Robin Hood's Adventures," and James Shoots explained about Oscar, the bronze Academy award and its importance in American folklore.

Those who wish will make a more extended tour of European countries and will return in September.

Feet's Too Big

The camera doesn't lie, but at times stretches the truth a bit. Clint Hartung, New York Giants' pitcher, looks as though he's composed mainly of hands and feet at the Giants' Phoenix, Ariz., training camp. But it's the same kind of optical illusion opposing batters suffer when they face Clint's fast ball.

Fishermen Recover Body Of Man Near Matchbook Cove

A body, tentatively identified as that of Morris M. Brannan, who was washed off the rocks below Devil's Slide on March 26, was recovered by fishermen off Matchbook Cove.

Brannan met his death while on a fishing expedition with Sidney R. Cowell.

He is survived by his wife and two small children. He was 34 years old.

Brownies Make "Bunny" Napkins For Hospital Patients

The girls of Brownie Troop No. 7, which met Wednesday afternoon, April 6, at their Peoria scout house, were busy making bunny decorated napkins for the Easter morning trays of patients at the San Mateo County hospital.

Officers elected by the Indian vote were: Evelyn Larson, president; Nadja Colby, secretary; Diann Woods, treasurer.

Easter-trimmed cup cakes, candy and eggs were left by the Easter bunny, with the leaders Mesdames Dorothy Kramer, Cynthia Lake, and Dorothy Carr, to distribute to the girls.

More About State Income Tax --- Filing Deadline For Which Is April 15

(This is the third of a series of articles prepared under the direction of Chas. J. McColgan, franchise tax commissioner, relative to the liability of taxpayers under the California Personal Income Tax Law.)

The tax under the law is based upon "net income" which is computed by first allowing taxpayers the deductions from "gross income" that are allowable in computing "adjusted gross income." The following are some of the deductions allowable under the law in computing adjusted gross income:

Salary Income — In the event employment requires that an individual travel, expenses so incurred including board and lodging are deductible provided the taxpayer is not reimbursed. If reimbursement or allowance for such expenses is made, such amounts must be included in gross income and the actual expenses may be claimed as deductions therefrom. No deduction may be claimed from salary income for: Cost of education or training to fulfill or qualify for a position; expenses of trips in search of work; car fare or other transportation costs in going to and from work; expenses of moving to another locality upon change of employment.

Professional Income — All professional fees must be reported as income, and deductions therefrom are allowable for expenses incurred in practice of the profession, which include rent, automobile upkeep, light, water, fuel, supplies, telephone, and salary paid assistants. Any expense incurred in part as personal and part as professional expense must be allocated and is deductible only to the extent attributable to practice of the profession. The cost of furniture, fixtures, equipment and technical books is not allowed as an expense but the cost thereof may be recovered through depreciation deductions.

Business Income — Profit from business operations must be included as gross income. From gross profit, which is gross sales less cost of goods sold, deductions may be claimed for all the ordinary and necessary expenses of doing business such as salaries and wages,

rent, light, heat, power, water, advertising, stationery, postage, insurance, delivery and trucking expense.

After computing adjusted gross income, the taxpayer may elect to compute net income by taking certain specific deductions which are allowable even though not directly connected with the production of gross income, or he may elect to compute net income by claiming the standard deduction, which is in lieu of all deductions other than those that are subtracted from gross income in computing adjusted gross income.

Standard Deduction — The Personal Income Tax Law gives individual taxpayers the option of taking a standard deduction in lieu of all deductions other than those that are subtracted from gross income in computing adjusted gross income. The amount of the standard deduction depends upon the amount of the adjusted gross income. If the adjusted gross income is \$5,000 or more, the standard deduction is \$300. If husband and wife file a joint return and their aggregate adjusted gross income is \$5,000 or more, the standard deduction allowable is only \$300. If the adjusted gross income is less than \$5,000, the standard deduction is allowed if the taxpayer elects to use the Optional Tax Table which automatically allows a standard deduction of approximately 6 per cent of the adjusted gross income. When husband and wife file separate returns, one spouse may take the standard deduction of \$300 only if the other spouse also takes the standard deduction of \$300 or uses the Optional Tax Table. If the tax of one spouse is determined from the Optional Tax Table, the other spouse, if not using this table, may claim only \$2,250 personal exemption.

Itemized Deductions — If the taxpayer does not elect to claim a standard deduction either by taking a deduction of \$300 or computing his tax under the Optional Tax Table, he is allowed, in addition to those deductions allowed in computing adjusted gross income, certain specific deductions the most important of which are taxes (including amounts paid into the California State Unemployment Insurance Fund, but excluding taxes

SPECIAL SERVICE FOR CHILDREN AT BROADMOOR CHURCH

The children will almost "take over" the 11:15 a.m. worship service at the Community Presbyterian Church in Broadmoor Village when more than 25 of them are presented by their parents for the Sacrament of Baptism Palm Sunday morning. At this time the newly organized Children's Choir will make its first appearance under the direction of Esle Faust, church organist.

This will be the first time the sacrament will have been administered in the church, according to the Rev. John A. Glasse, resident minister. Mr. Glasse added that no parents are to present children without instruction from the minister before Sunday.

paid on net income), union dues, assessments for out of work benefits, fees paid to secure employment, interest, charitable contributions, medical expense, and other uncompensated losses. Before taking any such items, taxpayers should refer to the instructions appended to the California returns relative to the right to claim, time for claiming, and limitations on claiming any particular deduction.

Damage Suit Is Filed As Aftermath To Auto Collision

A suit for damages charging negligence was filed recently against Mervin A. Pruden by Harry P. Hackett, for himself and for his 2-year-old son Michael.

Michael, who is recovering from polio, was riding in a car driven by his father when it was assertedly struck by that of Pruden at San Jose and Santa Rosa February 6.

The small boy received a concussion of the brain, many bruises and lacerations as well as severe mental and physical shock. His complete recovery from the disease he was suffering was delayed six months, according to the complaint.

Hackett is asking \$15,800 for his son plus further medical aid, cost of the suit and \$278.33 for the damage to his car. Thomas L. Bocci is the attorney for the plaintiff.

City Manager Is Needed In S.S.F. Says The Mayor

Mayor Leo Ferko of South San Francisco advocated the creation of the new post of chief administrative officer of the city during the city council's last regular meeting last Friday night.

Ferko said:

"I believe the different departments of the city should combine and that the appointment of a chief administrative officer should be considered by the council. The city has grown too fast for its facilities. Councilmen cannot take sufficient time from their jobs to look after the interests of the city in the most efficient manner. We should go after more industries and not stress residential growth. If we do not go after the industries they will go across the bay or to San Jose. For that we need a city manager form of government."

Clown of the Sea . . . By J. R. Hago!

CRABS CAN BE COLORFUL—THEY VARY FROM BLACK TO WHITE THROUGH ALL THE COLORS—WITH BLUE, THE EDIBLE KIND, BEING THE MOST IMPORTANT

DON'T crab the act, if it is crabs who are putting on the performance. Crabs are an unending source of amusement and education. If you live near the ocean, this is a good season of the year to get acquainted with Mr. Crab's scientific name.

On a beach anywhere between Maine and Florida you might glimpse what the small fry term the "Thumb-a-Ride Crab." Zoologically this fellow is called the "Fighting Crab," because one claw is small, the other is developed to enormous size. When the crab is alarmed, he runs, holding his large claw aloft as if it were a hitchhiker thumbing for a ride.

Now have a look at the Fiddler Crab whose two forelegs move like the bow on a bass viol. To see a group of these crustaceans together is like watching a silent symphony.

If you are color conscious, keep your eyes peeled for the Nipper Crab whose brown shell shades to a brilliant scarlet. Nipper moves fast as a jet-propelled submarine through the water.

FOR further brilliance seek the Velvet Fiddler whose shell is covered with velvet-like short hairs. The Spirit Crab will dart swiftly to the water's edge, standing side-wise until his gills, parched by the

day's heat, have been lightly moistened. Like the "darling daughter" Spirit won't go in the water because he would DROWN. If you lie motionless on the sand this wee ghost will walk over you in search of food. Move and he will scuttle off like the spirit for which he is named. When the first light of dawn appears, all Spirit Crabs race to their burrows where they entrench themselves in mounds of sand until sundown.

Zoologists say crabs show the highest intelligence of all animals that develop without a backbone. The clever crab can furnish a whole season of amusement to those who take the time and patience to observe him.

Make This Wiggly Water Snake

HERE is a swimming snake that will wiggle its way right across the bathtub if you do a little coaxing with a hand magnet.

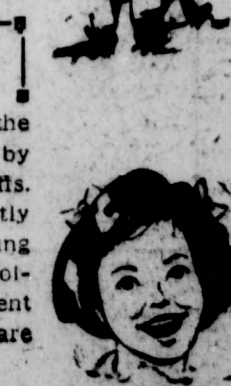

The water snake is made from a short piece of cord such as is used on a window blind. The cord must be fairly thick but not too stiff and about six inches long. To make it water proof, soak it in melted candle grease. When it is evenly coated with the tallow allow it to cool, then press a needle part way into one end of the cord. Fix the needle so that the eye sticks out to form the snake's head.

When placed in a pan of water or in the bathtub your wiggly snake will wiggle itself into a swimming mood if you hold a magnet in front of its nose. The magnet attracts the needle and strange to say, the snake's body wiggles as if it were alive as it swims.

Building Permits In Daly City Show Increase Over Those Issued Last Month

A total of 79 building permits totalling \$588,341 were issued during the month of March, according to Arthur Bodien, superintendent of the Water Department.

The largest single amount was for the Woodrow Wilson school annex, construction of which will cost \$64,000. It was also the only commercial permit issued.

Permits for 65 dwellings, amounting to \$517,436 were also given out. This included the 29 units in the Doelger tract. Thirteen permits for alterations, amounting to \$6,905 were granted.

The number of building permits issued was a marked increase over February when 20 building permits were issued for a total of \$80,700, and also over March

of last year when 42 building permits (28 for dwellings and 14 for alterations) gave a sum of \$224,325.

Bodien expressed the opinion that building would continue in Daly City and that "within the next two years we won't have a single vacant lot within the present limits of Daly City."

Bodien also said that building permits in other Peninsula cities had generally decreased this month.

Merchants Assn. Met Monday

(Continued from page 1)

The recommendation was moved by Hugh Smith, seconded by Nate Pearlman, and passed unanimously by the members present. It provides a \$12 basic fee plus \$6 additional to go into a fund for recreation, promotional expenses, and other projects "for the general benefit of Daly City."

The fund would be administered by a committee composed of 7 representatives of the merchants association, the head of the recreation department, and the five members of the city council.

In other words, each merchant, regardless of gross income, would pay a flat fee of \$18, with the exception of those businesses that require special policing, such as taverns, theaters, public dance halls, circuses, etc.

Other business transacted was as follows:

The association readopted its bylaws under the new charter as a non-profit corporation. A sum, not to exceed \$200 was appropriated for a float or other representation in the May Day parade, on the recommendation of Councilman Mel Battye, chairman for the event.

Acting chairman Markovich appointed Ted Hopman, Ira Neville and George Kirchhubel to a May Day committee under the chairmanship of Lombardi.

picture and try to "get by" using merely the brakes for deceleration. On the level, the brakes pull only against the car's momentum. On a

'ONE SUNDAY AFTERNOON' NEXT FILM FOR DALY CITY THEATRE

Romance, music, drama and laughs accent Warner Bros.' new Technicolor musical, "One Sunday Afternoon," starring Dennis Morgan, Dorothy Malone, Don DeFore

and Janis Paige, which opens Sunday at the Daly City Theatre. Raoul Walsh directed this film which is from the James B. Hagan stage hit which won popular acclaim when it first hit the Broadway boards.

"One Sunday Afternoon" is a comedy romance. The appeal of this film recalls the days when the bicycle - built - for - two was being pushed over to the right hand side of the road by the new-fangled contraption called the automobile. Ralph Blane is responsible for the music scores on this entertainment, which blends story with songs in the new Broadway manner.

"One Sunday Afternoon," a comedy drama with its understandable characterization, was considered the perfect vehicle for Warner

WALK - DON'T SPRING

Spring is in the air and spring is your step, but don't spring off the curb without taking a look at traffic, for your own safety's sake, urges the California State Automobile Association.

Bros. to utilize this new idea in film musicals. No sudden solos break up the continuity, nor is the usual accepted formula for introducing lines of dancing girls seen. Raoul Walsh has followed this new pattern closely in his direction, which is reported to strike fresh fields for Hollywood musicals.

Morgan leads off the bright cast, which in addition to the other trio of personalities, including Miss Malone, Miss Paige and DeFore, also has Ben Blue, Dorothy Ford, Alan Hale Jr., Oscar O'Shea and Richard Walsh. LeRoy Prinz staged the dances, with Ray Heindorf in charge of the musical frame.

Veterans Weekly News Column

Veterans planning to go to summer school under the GI Bill should begin now to make necessary arrangements for Veterans Administration certificates of eligibility.

A veteran already in school under the GI Bill who intends to continue his education this summer in a different school should apply as soon as possible for a supplemental certificate of eligibility.

They must have supplemental certificates before they can be admitted to new schools or courses. Application forms for the certificates may be obtained from the registrar's office at their school or from any VA office.

After a veteran has filled out the application, he should send it to the VA regional office having jurisdiction over the school he now is attending.

Veterans planning to attend summer school in the same institution in which they now are enrolled do not need a supplemental certificate to re-enroll.

Question: I interrupted my training under the GI Bill and now

would like to resume training at once. May I go back to my classes anytime?

Answer: Before you resume your interrupted training, you should get a supplemental certificate of eligibility from VA.

Question: Are patients in Veterans Administration hospitals permitted unlimited participation in competitive sports?

Answer: Patients may participate only with the permission of the doctor in each case. An average of 43,000 veterans per month have been participating in various sports at hospitals and homes.

Question: I wish to take on-the-job training. Where should I apply?

Answer: Apply at your nearest VA office. Take along a certified or photostatic copy of your discharge papers. If you are married

"Everyone Can Try"
Here's an editorial which appeared in the last issue of the Jefferson high school paper, the Totem Pole. Some of it may have been said before, but usually not so succinctly, and — this story has a local angle.

It's a commentary on success. "CONGRATULATIONS RUSS" "Every time something unusual happens at school or if someone does something outstanding, we of the Totem Pole staff feel that it should be mentioned in the paper. Russ Murphy, a sophomore, won the Lions Club Speaking Contest

HI-LITES AT C.C.S.F.

By Roy Hurlbert

At last and whoopee, Teachers Institute and Easter vacation combine to vacate the Phelan avenue premises of all activity for a week commencing today.

Students and instructors will resume the grind on Monday, April 18, after the much appreciated sojourn from duty.

Since all club plans take a back seat 'til the return to classes, the writer takes up the slack with an overall looksee at the City College athletic picture.

Base voiced Bill Fischer's Ram horsehiders split a pair with Stockton's Clubs last Saturday in their second doubleheader session in the NCJCC baseball race. Rated a favorable chance to be in the thick of the pennant chase, the locals got a temporary setback toward that end, as they were rapped 9-3 in the first tilt although they stroked 11 hits to the winners' 9. Righthander Lee Jones started for the Rams but three errors and a six-run seventh frame for the valley nine saw him retire in favor

in San Mateo where he competed against six other speakers, five of whom were from other districts. It is not often that a Jeff student honors himself so, and the school should be proud of Russ, who did a fine job and brought honor to Jeff.

"There is no doubt that there are other capable students in school who, if they applied themselves, could be good pupils. The trouble is that there are so very many people around here who will give up before they start with the attitude that they can't learn and never will be able to.

"Everyone can't be a winner, but everyone can try. If you do, that's all anyone can ask."

Costa Rican President Leads His Men

President Jose Figueres, arrow, in black hat, marches into Liberia at the head of a detachment of newly formed Costa Rican troops. Liberia was one of the points near the Nicaraguan border which was held recently by rebel forces said to have invaded from Nicaragua.

of Bob McGovern who finished on the hill.

In the second game, Ron Kiefer and McGovern, in a relief role again, collaborated to hold opposing batters to five bingles in annexing a close seven-inning duel, 4-3. City College's league slate now stands three wins, one loss.

Tomorrow the residents engage Menlo at Funston park in a single. San Mateo extended its lead in the loop race by walloping Menlo's Oaks, 15-4. The Mateans banged out 14 hits to a meager two for the losers.

Track Coach Grover Klemmer took 15 Ram cindermen to Stockton last Saturday and the Red and White clads wound up second best

up for third behind two Cub harrisers in the lows.

Next oval test for the Klemmerites is with the California Frosh at Berkeley tomorrow.

Winding up their regular intercollegiate schedule, boxing mentor Roy Diederichsen's injury riddled squad had to be content with a standoff with Modesto J.C.'s ringmen, 4½-4½, last Friday afternoon.

Ed Sato, pocket-size bantam, Len Garcia, featherweight, and Roy Damas, welterweight, tallied for the Rams with winning efforts.

Diederichsen sends his fisticufflers to Modesto for the two-day regional qualifiers with the survivors to compete later on this month in the national junior college finals at Pasadena.

The departure of capable Johnny Fisher to SF State, where he is going great guns on the Gator mit aggregation, plus the recent decision of talented heavyweight Frank Suega to retire his services, has upturned the balance of a fine original team.

Lanky Jerry Stern, a good welterweight, is the Rams' best bet along the aforementioned Damas, to contest the Pasadena bids at their weights.

As a gauge of their strength, on one of their better outings, the locals barely missed tying San Jose State's potent group, a feat unmatched for closeness by all Spartan foes thus far.

Ralph Hillsman's golfers out-putted Hartnell and University of San Francisco Dons in their initial link encounters.

Harry Buttmer's courtmen thumped Hartnell 7-0 in their initial encounter in the NCJCC tennis campaign.

Intramural basketball with a record turnout of some 49 quintets pursuing the pace, has reached the half way mark with the Loops, Balboa Alumni A.C., and the Balboa Buccaneers leading the pack in the victory column. The Balboa Alumni outfit was runnerup in last

SECOND '49 GOLD RUSH CENTENNIAL APRIL 1, ARRIVAL OF "OREGON"

The great California Gold Rush, flowing through San Francisco, the Port of Gold, began to get into full swing by the spring of '49.

Arrival of the Argonauts' second steamer, the "S.S. Oregon," April 1, 1849, presaged the coming to California of many thousands more by ship — and by prairie schooner, now that the snows had melted in the Sierra to let the wagon trains through.

San Francisco's Gold Rush Centennial Committee, preparing for its second Centennial ceremony of '49, centenary of the "Oregon" (following observance of the arrival of the first Argonaut steamer, the "California," February 28) today called attention to a number of interesting facts in regard to the "Oregon" and its prominent passengers.

"OREGON" BROUGHT 250 '49ers
Dropping anchor in Yerba Buena Cove just under Telegraph Hill April 1, 1849 the Pacific Mail steamer "Oregon" brought 250 passengers — and 5,000 letters for homesick '49ers. Most of the passengers were impatient to get to the "diggins" and what they deemed was certain wealth.

Among a handful of business and professional men who arrived in San Francisco was a young man who became one of the Gold Rush City's early "greats," though he remained here only three years. This was John White Geary, the 29-year-old Pennsylvanian newly appointed San Francisco's first postmaster. Already possessing the ranks of colonel and brevet general, earned in the Mexican campaign, Geary was destined to become the last of San Francisco's American alcaldes, the first mayor and founder of honest civic government, municipal judge and president of the state and city boards of health. He was also a charter member of California Lodge No. 1, F. & A. M.

When he left California in 1851,

Geary gave Union Square to the city "as a benefit to the people of San Francisco."

PROMINENT MEN ON "OREGON"

Likewise on the "Oregon's" passenger list were a dozen or more business and professional men who played an important role in building a firm business foundation for the Port of Gold.

Two early attorneys, Frederick Billings and A. C. Peachy, were aboard, and two bankers, J. C. Palmer and C. W. Cook, who formed the firm of Palmer & Cook. The ministry was represented by Rev. Albert Williams, founder of the Protestant Orphanage. Major R. P. Hammond represented the engineering profession. Another arrival on the "Oregon" was Faxon D. Atherton, grandfather of the late Gertrude Atherton, famous novelist. Julius F. Bekeart, another passenger who went directly to Coloma, was the father of the late Phil B. Bekeart, the man who re-established the site of Sutter's Mill in 1924.

The steamer "Oregon" was a sister ship of the "S.S. California," which reached San Francisco February 28, and was also a wooden sidewheeler with three masts and two decks. Under command of Captain Richard H. Pearson she cleared New York harbor December 8 and rounded the Horn with only minor delays from mechanical trouble and heavy weather. Her most serious problem was the engine room's intense suffering from inadequate ventilation that caused the engine room temperature to soar as high as 132 degrees.

CAPTAIN FORESTALLS DESERTERS

To make sure the "Oregon's" crew would not follow the example set by that of the "California," who deserted to a man on arrival in San Francisco, Captain Pearson increased pay rates from \$12 to \$112

Faces Spy Trial

Judith Coplon, above, 27-year-old former Justice Department analyst, has been ordered to stand trial in New York on April 1, and in Washington on April 25, on two separate indictments charging her with having taken secret security information and conspiring to commit espionage. Her attorney said she was merely "collecting material" for a book.

per month and promised his chief officer the unheard of salary of \$250, his cook \$200. As a double precaution, the canny captain ran the "Oregon" under the guns of the U.S. warship "Ohio," lying at anchor in the Bay and received Commodore Jones' promise of aid in restraining a possible mutiny.

Following her maiden voyage the "Oregon" plied between San Francisco and Panama, picking up San Francisco-bound passengers and mail brought by East Coastside vessels to the Isthmus port of Chagres and then carted overland to Panama. On her southbound voyages her principal cargo, besides mail, was gold dust — her share of the estimated total of \$710,753,857.62 in virgin treasure shipped from San Francisco by way of Panama in the period from 1849 to 1869.

Business Bureau Warns Merchants

Business men were warned today by the San Francisco Better Business Bureau to be on the look-out for a salesman who collects cash deposits on neon signs then fails to deliver the merchandise. The salesman is described as a negro, 45 years of age, 5'5", from 160-200 pounds.

According to police, this man has operated in other communities in a similar manner.

It is estimated that one-sixth of the rain that falls on the United States is absorbed by vegetation or sinks in to the ground.

SAN MATEO SUPERVISORS APPROVE GRAND NATIONAL JUNIOR EXPOSITION

An enthusiastic welcome to the nearly 1,200 youthful exhibitors, their leaders and families who will attend the Third Annual Grand National Junior Livestock Exposition and National Intercollegiate Rodeo Championships at the San Francisco - San Mateo Cow Palace, April 9-14 has been issued by the San Mateo County Board of Supervisors.

Introduced by Supervisor E. R. McDonald of Burlingame, the resolution was approved by the Board, who support this youth activity that annually brings the Future Farmers of America and 4-H Club representatives to the area for an educational and entertainment event.

San Mateo county will have 12 of its rural boys and girls entering the Cow Palace competition during the six-day Junior Grand National. They will compete in the beef and dairy cattle, sheep and swine classes with representatives from all over the State of California as well as youth from Nevada, Oregon, Idaho and Utah.

In approving the resolution concerning the Grand National Junior Livestock Exposition, the San Mateo Board of Supervisors took notice of the large number of visitors brought into the area by the Cow Palace Junior Show and not only bid them welcome, but promised the traditional hospitality of the county during the six-day gala event.

Irish Clubs Announce Annual Easter Ball

The Irish Republican Clubs of San Francisco will hold their annual Easter Sunday night ball in the Knights of the Red Branch Hall, 1133 Mission street on Easter Sunday night, April 17.

This is in keeping with the policy of all Irish Republicans, both in Ireland and in America, to honor the re-awakening of the Irish National Movement for complete independence by the Rising of Easter Week 1916. Ever since that epic week Irish men and women all over the world set aside the week of Easter as a period of national commemoration, and numerous meetings and gatherings of the Irish race are organized to pay

Congress-Bound?

With a vacancy in Congress left by the death of New York's Rep. Sol Bloom, 35-year-old Franklin D. Roosevelt, Jr., has agreed to become a candidate for the post in a special election to be held at an as yet undetermined date. He is expected to be supported by both Democratic and Liberal parties of New York's 20th district.

Market Street Routes Shifted

A major shift in street car and bus routes on Market street is in effect, as removal of the outer set of street car tracks got under way this week.

All street cars heretofore running to the Ferry building have been switched to the Bay Bridge Terminal, First and Mission streets, while all Market street buses are now routed to the Ferry building.

honor to the memory of the men who led the fight against the invader and sacrificed their lives in the endeavor.

A great gathering of the San Francisco Irish is expected to fill the K.R.B. Hall on Easter Sunday night, and also on the following Saturday night for another hosting to pay tribute to the memory of Ireland's patriots.

DON'T GUESS

With longer motor trips in prospect for spring and summer, the California State Automobile Association offers this advice: "Don't be a gas guesser." Be sure that you have enough gasoline to drive to your next stop. If in doubt, pull in to a service station and "fill 'er up."

WATER IN CRANKCASE

Presence of water in the automobile crankcase can be determined by checking the oil while the engine is idling, says the California State Automobile Association. Foamy appearance of the oil adhering to the dipstick indicates water dilution.

HEADLIGHT SAFETY

Have you had your car's headlights checked recently? If not, the California State Automobile Association advises that you have them examined without delay to make sure that both headlights are functioning properly, uniformly and safely.

STILL MOST DANGEROUS

The most dangerous of all driving regulation violations remains that of right-of-way theft, states the National Automobile Club. Approximately one-fourth of all traffic mishaps involve a breach of the right-of-way rule.
